This is to certify that the cargo stuffed in the below container(s) was fumigated with a toxic fumigant as following details:

Fumigant  
Dosage  
Duration of exposure  
Place of fumigation  
Date of fumigationWe certify that each container has been fumigated after loading of cargo.  
Container No./Seal No. as per B/L No. : on board Dated:

This certificate refers to the fumigation of the container(s) mentioned above only and does not testify to other uses.

Please be noted that for effective fumigant in accordance with manufacturer's instructions the container(s) should not be ventilated before the above mentioned exposure period has been completed and no movement of the fumigated container(s) until the recommended exposure time have lapsed in order to prevent any gas leakage. Failure to implement this could result in ineffective fumigation leading to cargo rejection, re-fumigation and associated cost.
